## **SECOND / THIRD READINGS SUMMARY SHEET**

**ZONING CASE NUMBER:** C14-05-0171

**REQUEST:**

Approve second and third readings of an ordinance amending Chapter 25-2 of the Austin City Code by zoning property locally known as 301 West Slaughter Lane and 9501 South First Street (Slaughter Creek Watershed) from interim – rural residence (I-RR) district zoning; limited office – conditional overlay (LO-CO) combining district zoning; and general commercial services – conditional overlay (CS-CO) combining district zoning to community commercial – mixed use – conditional overlay (GR-MU-CO) combining district zoning for Tracts 1 and 2; townhouse and condominium residence (SF-6) district zoning for Tract 3; townhouse and condominium residence – conditional overlay (SF-6-CO) combining district zoning for Tract 4; and community commercial – conditional overlay (GR-CO) combining district zoning for Tract 5.

On Tracts 1 and 2, the following uses are prohibited: automotive sales; bail bond services; drop-off recycling collection facility; exterminating services; pawn shop services and residential treatment. On Tract 4, the conditional overlay establishes the development regulations according to the specific type of residential development and corresponding lot size that is proposed. On Tract 5, the following uses are prohibited: drop-off recycling collection facility; pawn shop services; residential treatment; and service station. In addition, for those parcels with Slaughter Lane frontage (Tract 5), neighborhood commercial (LR) site development regulations are established.

The Restrictive Covenant is for the conditions of the Traffic Impact Analysis and corresponding addendum which restricts turning movements from Driveway B (along South First Street) to right-in, right-out, and allows full turning movements from Driveway K (along West Slaughter Lane) with the developer to fund its signalization, if permitted.

**DEPARTMENT COMMENTS:**

On May 10, 2006, Staff received an amendment to the rezoning request on Tract 4; the Applicant would like to pursue SF-4A district zoning at this location. Please refer to the e-mail following this Summary Sheet.

The Conditional Overlay and Restrictive Covenant incorporate the conditions imposed by the City Council at First Reading.

**OWNERS/APPLICANTS:** Abel J. and Mary Ann Theriot Family, L.P. (Curtis Sanders); SP Meadows Central, Ltd (Andy Pastor)

**AGENT:** Armbrust & Brown, L.L.C. (Richard T. Suttle, Jr.)

**DATE OF FIRST READING:** April 20, 2006, approved GR-MU-CO district zoning for Tracts 1 and 2; SF-6 district zoning for Tract 3, SF-6-CO district zoning for Tract 4 and GR-CO district zoning for Tract 5, with conditions on First Reading (6-0, McCracken off the dais).

**RESTRICTIVE COVENANT**

**OWNER:** Abel J. and Mary Ann Theriot Family Limited Partnership,  
a Texas limited partnership

**ADDRESS:** 4917 Congress Avenue, Austin, Texas 78745-2306

**OWNER:** SP Meadows Central, Ltd., a Texas limited partnership

**ADDRESS:** 221 West 6<sup>th</sup> Street, Suite 1300, Austin, Texas 78701

**CONSIDERATION:** Ten and No/100 Dollars (\$10.00) and other good and valuable consideration paid by the City of Austin to the Owner, the receipt and sufficiency of which is acknowledged.

**PROPERTY:** Being 143.207 acres of land, consisting of five tracts of land, more or less, out of the S.F. Slaughter League in Travis County, the tracts of land being more particularly described by metes and bounds in Exhibit "A" attached and incorporated into this covenant.

WHEREAS, the Owners of the Property and the City of Austin have agreed that the Property should be impressed with certain covenants and restrictions;

NOW, THEREFORE, it is declared that the Owners of the Property, for the consideration, shall hold, sell and convey the Property, subject to the following covenants and restrictions impressed upon the Property by this restrictive covenant. These covenants and restrictions shall run with the land, and shall be binding on the Owners of the Property, its heirs, successors, and assigns.

1. A site plan or building permit for the Property may not be approved, released, or issued, if the completed development or uses of the Property, considered cumulatively with all existing or previously authorized development and uses, generates traffic that exceeds the total traffic generation for the Property as specified in that certain Traffic Impact Analysis ("TIA") prepared by WHM Transportation Engineering Consultants, Inc., dated May 2006, or as amended and approved by the Director of the Watershed Protection and Development Review Department. Development on the Property is subject to the recommendations contained in the memorandum and addendum from the Transportation Review Section of the Watershed Protection and Development Review Department dated January 31, 2006 and May 1, 2006, respectively. The TIA shall be kept on file at the Watershed Protection and Development Review Department.
2. If any person or entity shall violate or attempt to violate this agreement and covenant, it shall be lawful for the City of Austin to prosecute proceedings at law or in equity against such person or entity violating or attempting to violate such agreement or covenant, to prevent the person or entity from such actions, and to collect damages for such actions.
3. If any part of this agreement or covenant is declared invalid, by judgment or court order, the same shall in no way affect any of the other provisions of this agreement, and such remaining portion of this agreement shall remain in full effect.

4. If at any time the City of Austin fails to enforce this agreement, whether or not any violations of it are known, such failure shall not constitute a waiver or estoppel of the right to enforce it.
5. This agreement may be modified, amended, or terminated only by joint action of both (a) a majority of the members of the City Council of the City of Austin, and (b) by the owner(s) of the Property subject to the modification, amendment or termination at the time of such modification, amendment or termination.

SF-6 for Tract 3 (14.017 acres);  
SF-6-CO for Tract 4 (79.684 acres);  
(as amended)  
GR-CO for Tract 5 (39.023 acres)

**TOTAL AREA:** 143.207 acres

### **SUMMARY STAFF RECOMMENDATION:**

The Staff recommendation is to grant:

- For Tracts 1 and 2 – community commercial – mixed use – conditional overlay (GR-MU-CO) district zoning. The conditional overlay prohibits automotive sales; bail bond services; drop-off recycling collection facility; exterminating services; pawn shop services; and residential treatment;
- For Tract 3 – townhouse and condominium residence (SF-6) district zoning;
- For Tract 4 – townhouse and condominium residence – conditional overlay (SF-6-CO) combining district zoning. The conditional overlay establishes the following: that single family residence uses equal to or greater than 5,750 square feet be built in accordance with SF-2 development regulations; that single family residence uses equal to or less than 3,600 square feet be built to SF-4A standards; that duplex residential, single family attached and two-family residential uses be built in accordance with SF-3 development regulations; and that townhouse and condominium residence uses be built in accordance with SF-6 development regulations;
- For Tract 5 (*please refer to Exhibit C*)  
– community commercial – conditional overlay (GR-CO) district zoning for 4.10 acres along West Slaughter Lane and for the area east of the north – south interior boulevard. Along West Slaughter Lane, the conditional overlay prohibits the following uses: automotive rentals; automotive repair services; automotive sales; automotive washing; drop-off recycling collection facility; pawn shop services; residential treatment; and service station. Along the north – south interior

boulevard, the conditional overlay prohibits the following uses: drop-off recycling collection facility; pawn shop services; and residential treatment.

– neighborhood commercial (LR-CO) district zoning for the remaining 9.29 acres (approximately) along West Slaughter Lane, with the Conditional Overlay prohibiting residential treatment;

– general office (GO) district zoning for the area west of the north – south interior boulevard.

The Restrictive Covenant includes all recommendations listed in the Traffic Impact Analysis memorandum, dated January 31, 2006, as provided in Attachment A.

**ISSUES:**

The Applicant is in agreement with the recommendations of the Zoning and Platting Commission meeting.

At the Zoning and Platting Commission meeting, the Applicant wanted to discuss the Staff zoning recommendation for Tract 5 and Traffic Impact Analysis recommendations #2 and #3.

The Board members of the Park Ridge Owners Association Board have written a letter of support for the rezoning case, which is attached towards the back of the packet. The Applicant and the Association have also worked together on a private Restrictive Covenant, also attached. One homeowner within Park Ridge has written a letter of opposition to the rezoning, also attached.

**DEPARTMENT COMMENTS:**

The subject rezoning area consists of a portion of the former South Park Meadows, is presently undeveloped, has direct access to West Slaughter Lane and South First Street, and is zoned interim – rural residence (I-RR) district, limited office – conditional overlay (LO-CO) and general commercial services (CS-CO). Driveway access through adjacent and related commercial developments is also provided to Cullen Lane, Turk Lane and IH-35. Within the past 2 ½ years, zoning changes for new commercial development and redevelopment have been approved on the south side of West Slaughter Lane in proximity to the IH-35 frontage road (Wal-Mart, South Park Meadows) and on the east side of South First Street (zoned GR-MU-CO – Harrell Tract #1). Please refer to Exhibits A (Zoning Map) and A-1 (Aerial View).

The Applicant proposes to create a master plan incorporating single family residential, townhomes and multi-family, office and commercial uses. Please refer to Exhibit B. The master plan also features shared driveways for the commercial uses on West Slaughter Lane; perimeter landscaping and fencing; hooded and shielded lighting; unified, monument-style signs; walking trails; ten acres of wet ponds; and, a soccer field near Slaughter Creek. The property is proposed to be developed with 361 apartments (Tracts 1 and 2, proposed for GR-MU-CO, with the Mixed Use designation allowing for residential development in conjunction with the adjacent GR-MU-CO property to the south); 178 townhouses (Tract 3, proposed for SF-6); 400 residences of varying type (Tract 4, proposed SF-6-CO); 154,000 square feet of medical / dentist office space and 86,000 square feet of general office (Tract 5, proposed GR-CO), as well as a service station with 8 fuel pumps, 14,800 square feet of fast food restaurant with drive through, 8,000 square feet of fast food restaurant *without* drive-through, a 5,000 square foot high turnover restaurant, a drive-in bank with 10 lanes and a 6,000 square foot child care

center (also on Tract 5, GR-CO). The Applicant has offered to prohibit certain uses on Tract 5, and these have been incorporated into the Staff recommendation.

Staff recommends the Applicant's request for GR-MU-CO zoning on Tracts 1 and 2 based on its location on South First Street, an arterial roadway which is suitable for multi-family or commercial uses, and adjacent properties to the south have been approved for GR-MU-CO zoning for similar development. The Conditional Overlay is consistent with that approved for the adjacent GR-MU-CO zoned property to the south. For Tracts 3 and 4, Staff recommends the Applicant's request for SF-6 and SF-6-CO, respectively, based on: a) incorporating a residential component into the development, b) providing additional housing types (single family residences – attached, standard lot and small lot, duplexes, two-family residential, townhouses and condominiums) in the area, and 3) compatibility with other nearby residential subdivisions.

For Tract 5, the Staff recommendation *differs* from the Applicant's request, and the areas of difference are illustrated in Exhibit C. The Staff recommends GR-CO for 4.10 acres along West Slaughter Lane, limited to the two main entrances to this development. The Conditional Overlay is for prohibited uses, including auto-related uses. LR-CO zoning is recommended for the remainder of the West Slaughter Lane frontage (approximately 9.29 acres), because this portion does not have dual street / driveway access, and thus is situated away from an intersection), the availability of existing, undeveloped GR zoned property along the south side of Slaughter Lane between South First Street and IH-35, and greater compatibility with the existing and planned single family residential subdivisions. Along the east side of the north – south interior boulevard, also referenced in Exhibit C, the Staff and the Applicant are in agreement for GR-CO zoning, so that it may be combined with the adjacent shopping center under construction to the east. Along the west side of the interior boulevard, the Staff is recommending GO zoning, due to its interior location and thus, does not have direct access to the surrounding major arterial roadways, consistency with the use described in the Traffic Impact Analysis and greater compatibility with the planned SF-6-CO development adjacent to the west (Tract 4). The traffic improvements outlined in the Traffic Impact Analysis for the subject property and right-of-way will limit development to maintain acceptable traffic conditions on adjacent roadways and intersections.

The Transportation Review Section has reviewed the Traffic Impact Analysis for the Saunders 143 TIA (aka Grove at Southpark Meadows), dated September 2005, prepared by Kathy Hornaday, P.E., WHM Transportation Engineering, and offers the following comments:

### **TRIP GENERATION**

The Grove at Southpark Meadows is a 143.207-acre development located in south Austin just southeast of the intersection of South 1<sup>st</sup> and Slaughter Lane.

The property is currently undeveloped and zoned Commercial Services – Conditional Overlay (CS-CO), Limited Office – Conditional Overlay (LO-CO), and Interim Rural Residence (I-RR). The applicant has requested a zoning change to Community Commercial – Mixed Use (GR-MU), Townhouse and Condominium Residence (SF-6) and Single Family Residence (SF-4A). The estimated completion of the project is expected in the year 2008.

Based on the standard trip generation rates established by the Institute of Transportation Engineers (ITE), the development will generate approximately 33,438 unadjusted average daily trips (ADT).

The table below shows the adjusted trip generation by land use for the proposed development:

### **EXISTING AND PLANNED ROADWAYS**

**Slaughter Lane** – Slaughter Lane forms the northern boundary of the subject site. This roadway is classified as a six-lane divided major arterial between Manchaca Road and IH 35. The 1997 traffic volumes on Slaughter Lane were approximately 27,560 and 30,210 vehicles per day (vpd), respectively, east and west of South 1<sup>st</sup> Street. Slaughter Lane is in the Bicycle Plan as a priority 1 route.

**Cullen Lane** – This roadway is classified as a collector street. The existing traffic volume for Cullen Lane south of Slaughter is 434vpd. The eastern half of Cullen Lane is being upgraded with the adjacent project.

**IH 35** – This roadway is classified as a six-lane freeway. The traffic volumes for year 2000 on IH 35 near Slaughter Lane were 115,000vpd. The Austin Metropolitan Area Transportation Plan classifies IH 35 as an eight-lane freeway with HOV lanes between William Cannon Drive and Slaughter Lane and as an eight-lane freeway between Slaughter Lane and FM 1626 in 2025. The southbound exit ramp south of Slaughter Lane near the intersection of Turk Lane will be extended by TXDOT. This roadway is in the Bicycle Plan as a priority 2 route.

**Congress Avenue** – This roadway is classified as a four-lane divided major arterial at its intersection with Slaughter Lane. Year 2000 traffic volumes for Congress Avenue between William Cannon and Slaughter were 4,800vpd.

**South 1<sup>st</sup> Street** – South 1<sup>st</sup> is located west of the site and is classified as a four-lane undivided minor arterial in the Roadway Plan. The traffic volume on South 1<sup>st</sup> Street north of Slaughter Lane was approximately 7,110vpd in 1997. This roadway is classified as a priority 2 route in the Bicycle Plan.

### **INTERSECTION LEVEL OF SERVICE (LOS)**

The TIA analyzed 18 intersections, 7 of which are or will be signalized. Existing and projected levels of service are as follows, assuming that all improvements recommended in the TIA are built:

\*Fiscal for improvement is not required at the time of zoning. Improvement is required to be included at the time of site plan

- 
- 2) Recommend no lefts out of Driveway K. The analysis shows this intersection to function at a Level of Service (LOS) F. Due to the high traffic volumes on Slaughter Lane, the ability to turn left out of this site is a safety concern therefore northbound lefts out of this site are not recommended for the following reasons:
- It is anticipated that with the deletion of this maneuver the number of potential conflicts at this intersection would be reduced.
  - There are three signalized intersection available to this site for those vehicles that need to go westbound on Slaughter Lane. Those signalized intersections include Cullen at Slaughter Lane, Francia Trail/Driveway H and Slaughter Lane and Driveway C and South 1<sup>st</sup> Street. These intersections allow for safer maneuvers out of the subject site.
  - Driveway K is planned to connect to a main artery which will serve this site as well as the site to the southeast.
- 3) Recommend removal of Driveway B. This is recommended for the following reasons:
- Low traffic volumes at this driveway.
  - Alternate access to a signalized intersection is available for the tracts proposed to utilize Driveway B
  - The Transportation Criteria Manual mandates minimization of driveways on an arterial to reduce the number of conflict points and facilitate traffic flow.
- 4) Joint access is required to be provided between all commercial lots.
- 5) Final approval from DPWT - Signals and TXDOT is required prior to 1<sup>st</sup> Reading.
- 6) Driveways should be constructed to the widths recommended in the TIA.
- 7) For Information: Two copies of the final version of the TIA incorporating all corrections and additions must be submitted prior to final approval of the zoning case.
- 8) Development of this property should be limited to uses and Intensities which will not exceed or vary from the projected traffic conditions assumed in the TIA, including peak hour trip generations, traffic distribution, roadway conditions, and other traffic related characteristics.

### **SUMMARY STAFF RECOMMENDATION:**

The Staff recommendation is to grant:

- For Tracts 1 and 2 – community commercial – mixed use – conditional overlay (GR-MU-CO) district zoning. The conditional overlay prohibits automotive sales; bail bond services; drop-off recycling collection facility; exterminating services; pawn shop services; and residential treatment;
- For Tract 3 – townhouse and condominium residence (SF-6) district zoning;
- For Tract 4 – townhouse and condominium residence – conditional overlay (SF-6-CO) combining district zoning. The conditional overlay establishes the following: that single family residence uses equal to or greater than 5,750 square feet be built in accordance with SF-2 development regulations; that single family residence uses equal to or less than 3,600 square feet be built to SF-4A standards; that duplex residential, single family attached and two-family residential uses be built in accordance with SF-3 development regulations; and that townhouse and condominium residence uses be built in accordance with SF-6 development regulations; and
- For Tract 5 (*please refer to Exhibit C*)
  - community commercial – conditional overlay (GR-CO) district zoning for 4.10 acres along West Slaughter Lane and for the area east of the north – south interior boulevard. Along West Slaughter Lane, the conditional overlay prohibits the following uses: automotive rentals; automotive repair services; automotive sales; automotive washing; drop-off recycling collection facility; pawn shop services; residential treatment; and service station. Along the north – south interior boulevard, the conditional overlay prohibits the following uses: drop-off recycling collection facility; pawn shop services; and residential treatment.
  - neighborhood commercial (LR-CO) district zoning for the remaining 9.29 acres (approximately) along West Slaughter Lane, with the Conditional Overlay prohibiting residential treatment;
  - general office (GO) district zoning for the area west of the north – south interior boulevard.

The Restrictive Covenant includes all recommendations listed in the Traffic Impact Analysis memorandum, dated January 31, 2006, as provided in Attachment A.

### **BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)**

*1. The proposed zoning should be consistent with the purpose statement of the district sought.*

For Tracts 1 and 2: The community commercial (GR) district is intended for an office or other commercial use that serves neighborhood and community needs and is generally accessible from major traffic ways. The mixed use (MU) district is

intended to allow for office, retail, commercial and residential uses to be combined in a single development.

**For Tracts 3 and 4:** The townhouse and condominium residence (SF-6) district, is intended as an area for moderate density single family, duplex, two-family, townhouse and condominium use.

**For Tract 5:** The community commercial (GR) district is intended for an office or other commercial use that serves neighborhood and community needs and is generally accessible from major traffic ways.

The neighborhood commercial (LR) district is intended for shopping facilities that provide limited business services and offices to the residents of the neighborhood, such as consumer repair services, food sales, service stations, and pet services. The purpose statement listed in the City of Austin *Land Development Code* states: "The Neighborhood Commercial district is the designation for a commercial use that provides business service and office facilities for the residents of a neighborhood. Site development regulations and performance standards applicable to a LR district use are designed to ensure that the use is compatible and complementary in scale and appearance with the residential environment."

The general office (GO) district is intended for offices and selected commercial uses predominantly serving community or City-wide needs, such as medical or professional offices. A building in a GO district may contain more than one use.

***2. Zoning changes should promote an orderly and compatible relationship among land uses.***

Staff recommends the Applicant's request for GR-MU-CO zoning on Tracts 1 and 2 based on its location on South First Street, an arterial roadway which is suitable for multi-family or commercial uses, and adjacent properties to the south have been approved for GR-MU-CO zoning for similar development. The Conditional Overlay is consistent with that approved for the adjacent GR-MU-CO zoned property to the south. For Tracts 3 and 4, Staff recommends the Applicant's request for SF-6 and SF-6-CO, respectively, based on: a) incorporating a residential component into the development, b) providing an additional housing types (single family residences – attached, standard lot and small lot, as well as duplexes, two-family residential, townhouses and condominiums) in the area and 3) compatibility with other nearby residential subdivisions.

For Tract 5, the Staff recommendation *differs* from the Applicant's request, and the areas of difference are illustrated in Exhibit C. The Staff recommends GR-CO for 4.10 acres along West Slaughter Lane, limited to the two main entrances to this development. The Conditional Overlay is for prohibited uses, including auto-related uses. LR-CO zoning is recommended for the remainder of the West Slaughter Lane frontage (approximately 9.29 acres), because this portion does not have dual street /

driveway access, and thus is situated away from an intersection), the availability of existing, undeveloped GR zoned property along the south side of Slaughter Lane between IH-35 and IH-35, and greater compatibility with the existing and planned single family residential subdivisions. Along the east side of the north – south interior boulevard, also referenced in Exhibit C, the Staff and the Applicant are in agreement for GR-CO zoning, so that it may be combined with the adjacent shopping center under construction to the east. Along the west side of the interior boulevard, the Staff is recommending GO zoning, due to its interior location and thus, does not have direct access to the surrounding major arterial roadways, consistency with the use described in the Traffic Impact Analysis and greater compatibility with the planned SF-4A development adjacent to the west (Tract 4). The traffic improvements outlined in the Traffic Impact Analysis for the subject property and right-of-way will limit development to maintain acceptable traffic conditions on adjacent roadways and intersections.

## **EXISTING CONDITIONS**

### **Site Characteristics**

The property is undeveloped. The site is relatively flat and there appear to be no significant topographical constraints on the site.

### **Impervious Cover**

The maximum impervious cover allowed by the GR, LR or GO zoning districts would be 80%, which is a consistent figure between the watershed and the zoning regulations.

The maximum impervious cover allowed by the SF-6 or SF-4A zoning districts would be 55%, which is a consistent figure between the zoning and watershed regulations.

The maximum impervious cover allowed by the SF-3 or SF-2 zoning districts would be 45%, which based on the more restrictive zoning regulations.

### **Environmental**

The site is not located over the Edward's Aquifer Recharge Zone. The site is in the Slaughter Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

| <i>Development Classification</i>                | <i>% of Net Site Area</i> | <i>% with Transfers</i> |
|--|---------------------------|-------------------------|
| Single-Family<br>(minimum lot size 5750 sq. ft.) | 50%                       | 60%                     |
| Other Single-Family or Duplex                    | 55%                       | 60%                     |
| Multifamily                                      | 60%                       | 70%                     |
| Commercial                                       | 80%                       | 90%                     |

In the Water Quality Transition Zones, impervious cover is limited to 30%.

According to flood plain maps, there is flood plain in, or within close proximity of, the project location. Based upon the close proximity of flood plain, offsite drainage should be calculated to determine whether transition zone exists within the project location. If transition zone is found to exist within the project area, allowable impervious cover within said zone shall be limited to 30%.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

Structural controls: Sedimentation and filtration basins with increased capture volume and 2 year detention.

At this time, no information has been provided as to whether this property has any pre-existing approvals which preempt current water quality or Code requirements.

### **Transportation**

A traffic impact analysis is required and has been received. Additional right-of-way, participation in roadway improvements, or limitations on development intensity may be recommended based on review of the TIA. [LDC, Sec. 25-6-142]. Comments are provided in Attachment A.

### **Water and Wastewater**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing the water and wastewater utility improvements, offsite main extension, system upgrades, utility relocation, and adjustments. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City

design criteria. The utility construction must be inspected by the City. The landowner must pay the associated and applicable City fee.

### **Compatibility Standards**

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

The site is subject to compatibility standards. Along the north property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.

Additional design regulations will be enforced at the time a site plan is submitted.

Dear ZAP Board Members:

The Park Ridge Owners' Association, Inc. (Park Ridge HOA Board) and Endeavor Real Estate Group have met several times to discuss the Southpark Meadows zoning case. Park Ridge HOA Board organized a meeting of Park Ridge residents on October 22, 2005 to review the development plans that Endeavor Real Estate Group presented for the land on the east side of South First and the south side of Slaughter Lane, across from our subdivision. Based on Endeavor's plans at the meeting, the responses to residents' questions and Endeavor's cooperation with our association, the Park Ridge HOA Board supports Endeavor's application for rezoning this land.

One very important additional factor weighed in favor of the Board's support of Endeavor's application: The City of Austin staff's support of the installation of a traffic light at the intersection of Slaughter Lane and Francia Trail. This traffic light was recommended in the Traffic Impact Analysis submitted to the City of Austin. We need the traffic light because our residents literally risk their lives trying to exit our subdivision onto Slaughter Lane.

We understand that, in addition to Endeavor's large project, KB Homes is building a new subdivision to the west along South First Street, which will also greatly impact traffic on Slaughter Lane. Therefore, we urge you to approve this zoning change, which will result in a well-thought-out master planned project with appropriate traffic calming and lighted intersections to improve the safety of our neighbors.

As an additional but unrelated note, we request that you help convert the area at the southern ends of Congress Avenue and South First Street into a model development for Austin. Our neighborhood is ready to provide any assistance in this regard.

Sincerely,

Rene' Lara  
HOA President

I am writing to express my opposition to the zoning request changes in case # C14-05-0171. My house is located at 9201 Vigen Circle, which is at the very southeast corner of the Park Ridge subdivision. Only a fence separates my backyard from Slaughter Lane.

After living in Orlando for 12 years, I have witnessed firsthand how out-of-control growth and over-development not only destroy the natural beauty of the land, but also lead to increased traffic, noise, pollution, and crime. There is no thought put into the consequences - it's all about the almighty dollar and greed.

One of the reasons I chose to move to Austin (particularly South Austin) was due to its seemingly environmental dedication to keep and honor green spaces. However, in the three short years I have lived here, I have become disheartened to see this city going down the same path as Orlando. I can only imagine how native or long-term Austin residents feel.

In this particular case, I am against the Southpark Meadows project and all its components being developed at all. I'd much rather see a peaceful open field with cattle in it than 425 acres of chain stores, restaurants, offices, houses and apartment complexes right across the street. I certainly don't mind driving 5 miles down the road to do my shopping at Sunset Valley (yet another Endeavor Property.)

I am especially concerned about the inevitable noise caused by construction vehicles and workers during a 3-5 year project. The current Waterstone apartment construction project located on the southwest corner of our neighborhood has made my house vibrate and shake so much that one of the shelves in my office fell off the wall. (And my house is on the opposite end of that construction!) This incessant noise - beeping vehicles and rumbling - starts around 6am Mondays - Saturdays.

Also, I am worried about the ramifications the construction will have if I decide to sell my house during the next couple of years. Will this deter prospective buyers? Will I even be able to make a profit on the sale of my house? I might have a better chance if it were located in the interior of Park Ridge, but not with Slaughter Lane directly behind my backyard. I truly don't believe this will help increase the resale value of my house. Already, three hideous looking light poles have been built that tower over the fence line. What a lovely view.

February 20, 2006

The Southpark Meadows project is a perfect example of the over-development problems going on all across our country right now. I'm really disgusted seeing land being turned into concrete jungles and big box and chain stores being built on every corner. I do not want a version of "Generica" in my own backyard.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in cursive script that reads "Wendy Worth".

Wendy Worth

## PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

## PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

Wendy:

On behalf of the Euers Family, property owners at the intersection of Cullen Lane and West Slaughter (135 W. Slaughter), we are requesting a 90 Day postponement on Zoning Case C14-05-0171; The Grove at Soutpark Meadows.

4 June 6, 2006

This postponement request is being made due to the time needed to review and study the transportation and ROW concerns that the Owner's have at the Intersection of Cullen and Slaughter, and its affect on their property. We feel that the amount of traffic that will be generated by the extremely large scale development will have an detrimental affect to the Owners small business and any future plans that they have for the facility that has been operating there since 1995.

This is our first opportunity to review the plans and feel that as an adjacent property owner, this postponement is warranted in order to make our concerns known.

Thank you,

Martin T. Brown  
The Brown Group  
on behalf of  
The Euers Family

Re: Case No. C14-05-0171; 301 W. Slaughter Lane and 9501 S. 1<sup>st</sup> Street ("Tract 4")

Dear Wendy:

This firm represents and I am writing to you on behalf of the applicant in the above-referenced case. The applicant wishes to amend its request for a portion of the zoning case. Specifically, the applicant would like to amend the application for zoning on Tract 4 to request townhouse and condominium residence district zoning with a conditional overlay (SF-6-CO). The CO would limit the uses to condominium residential, duplex residential, single family attached residential, single family residential, small lot single family residential, and townhouse residential. The CO would also include a provision that the development standards applicable to the specific use would apply at the time of development.

The purpose of this amendment is to allow a mix of lot sizes and housing types within Tract 4 instead of the all small lot development required by SF-4A. Please sever this portion of the case, note and review the amended request, and place it on the March 21<sup>st</sup> Zoning and Platting Commission agenda for consideration. The applicant's desire is that the remainder of Case No. C14-05-0171 remain on the ZAPCO agenda tonight for consideration.

If you have any questions or comments, please do not hesitate to contact me.

Very truly yours,

  
Richard T. Suttle, Jr.

**DECLARATION OF RESTRICTIVE COVENANT**

STATE OF TEXAS           §

COUNTY OF TRAVIS       §

THIS DECLARATION OF RESTRICTIVE COVENANT ("Restrictive Covenant") is entered into and effective as of the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, by the undersigned.

OWNER:                   SP Meadows Central, LP

ADDRESS:               C/O  
                              Mr. Andy Pastor  
                              Endeavor Real Estate Group  
                              221 West 6<sup>th</sup> Street  
                              Suite 1300  
                              Austin, Texas 78701

CONSIDERATION:       Ten and No/100 Dollars (\$10.00) and other good and valuable consideration paid by the City of Austin to the Owner, the receipt and sufficiency of which is acknowledged.

PROPERTY:             Approximately 24 acres of land; said tracts of land being more particularly described by metes and bounds in Exhibit "A" attached and incorporated into this covenant.

WHEREAS, the Owner of the Property and the City of Austin have agreed that the Property should be impressed with certain covenants and restrictions;

NOW, THEREFORE, it is declared that the Owner of the Property, for the consideration, shall hold, sell and convey the Property, subject to the following covenants and restrictions impressed upon the Property by this Restrictive Covenant. This Restrictive Covenant shall be deemed and considered as running with the land, and shall be binding on the Owner of the Property, its heirs, successors, and assigns.

1.     Rubbish and Debris. All litter, rubbish or other debris located within the portion of the Slaughter Lane right-of-way that lies adjacent and contiguous to the Property shall be collected and disposed of weekly.

2.     Quality Requirements. Each building must contain a minimum of 75% stone or brick.

3. Noise. No exterior speakers or other sound devices (other than speakers and sound devices used in connection with drive-through banks or restaurants) shall be located, used or placed on any exterior portion of the Property, unless such sound devices are required by law.

4. Loading Docks. Loading docks shall be screened from public right of ways. Screening shall consist of landscaping.

5. Temporary Structures. No temporary buildings, storage containers or structures shall be placed on the Property, except for temporary buildings, structures and containers necessary for storage and housing of construction materials, tools, equipment and construction spoils during actual construction.

6. Signage. Non-building signage for pad users on Slaughter lane will be restricted to monument signs not to exceed 9' 9" in overall height.

7. Illumination. All exterior illumination for any parking area shall be directed or shielded so that it shines only on the particular parking area for which such illumination was installed and shall not interfere with any adjoining property. Poles supporting light fixtures shall not exceed 25 feet in height.

8. Restricted Uses. Owner will restrict the uses of the pad sites on the southeast and southwest corner of Francia Trail and Slaughter Lane to not include any automobile service, sales, rental, gas stations or car washes.

9. Additional Restricted Uses. Owner will restrict the uses of the pad sites against a gas station on Slaughter Lane.

10. Integrated Pest Management Plan. The project shall comply with an integrated pest management plan.

11. Enforcement. If any person or entity shall violate or attempt to violate this Restrictive Covenant, it shall be lawful for the City of Austin to prosecute proceedings at law or in equity against such person or entity violating or attempting to violate such Restrictive Covenant to prevent the person or entity from such actions, and to collect damages for such actions.

12. Severability. If any part of this Restrictive Covenant is declared invalid, by judgment or court order, the same shall in no way affect any of the other provisions of this Restrictive Covenant, and such remaining portion of this Restrictive Covenant shall remain in full effect.

13. Waiver. If at any time the City of Austin fails to enforce this Restrictive Covenant, whether or not any violations of it are known, such failure shall not constitute a waiver or estoppel of the right to enforce it.

14. Amendment, Modification and/or Termination. This Restrictive Covenant shall run with the title and bind the land for a period of thirty (30) years from the date this Restrictive Covenant is recorded, after which time it shall be automatically extended for successive periods of ten (10) years. This Restrictive Covenant may be amended, modified or terminated during the first thirty (30) year period only by instrument signed by a majority of the members of the City Council of the City of Austin. Any such amendment, modification or termination shall be evidenced in a writing recorded in the appropriate records of Travis County, Texas.

15. Governing Law. This Restrictive Covenant shall be governed by the laws of the State of Texas.

EXECUTED this the \_\_\_\_\_ day of \_\_\_\_\_, 2006.

### **SUMMARY**

*Wendy Walsh, Staff, gave the Staff presentation.*

*Commissioner Jackson – On the North/South roadway that's part of this project, you say that on the east side of that you can support GR-CO because it can be combined and backs up to JC Penney's; however, on the west side you are recommending GO; and the Applicant is seeking GR-CO?*

*Ms. Walsh – That's correct.*

*Commissioner Jackson – I'm struggling with the difference; east and west side, if you look closer to I-35, you have Cullen Lane, we have GR on both sides of that street.*

*Ms. Walsh – That's right.*

*Commissioner Jackson – So how is that different than this road; that we say on one side is commercial development and the other it can't be commercial?*

*Ms. Walsh – This tract does not have direct access to an arterial, like the adjacent property to the east. The traffic impact analysis was for a certain number of medical office uses in this location, and GO covers that.*

*Commissioner Baker – Explain to me the GR and the LR on Slaughter.*

*Ms. Walsh – We were supportive of GR-CO at 3 individual sites on Slaughter, that corresponds with their two main entrances there; one, is on the east side of the north/south corridor; and the other two are opposite from Francia Trail to Park Ridge Subdivision; and there will be a drive that extends between those. We are supportive for GR-CO at those intersections and adjacent to that north/south corridor. The Applicant would like to discuss our recommendation for Tract 5, as well as two recommendations in the traffic impact analysis that Emily will go over. The Applicant has also met with Park Ridge Owners Association, and they did write a letter in support for this case and have come up with a private restrictive covenant.*

*Emily Barron, Transportation Staff – Gave a presentation regarding the traffic impact analysis. This site will generate approximately 23,068 adjusted daily trips; it will have access to approximately 11 pad sites and Staff agrees with the recommendation and improvements contained in the TIA, with two exceptions; the first exception will be to driveway K; Staff is recommending no left turns out of this driveway. It is anticipated that with the deletion of this maneuver, the number of potential conflicts at that intersection will be reduced. There are 3 future signal light intersections available for this site for those who need to go westbound on Slaughter Lane. Driveway K is planned to connect to a main arterial, which will serve this site as well onto the southeast. The other condition or recommendation in the T.I.A that Staff disagrees with is driveway B; we recommend that this driveway be removed based on the low traffic volume at this driveway; there's also alternate access to a signalized intersection for the tract to utilize.*

*Commissioner Jackson asked questions regarding Driveway K.*

*Ms. Barron – We're not recommending that driveway K be closed, just that the maneuver for "lefts out" of driveway K be eliminated.*

*Commissioner Jackson – But if you're going in you can turn left.*

*Ms. Barron – You can go left in; the recommendation is to eliminate the "left out" from this site.*

*Marty Brown, architect for owners at the intersection of Cullen and Slaughter Lane – We can indicate our strong support for approving this case with full access "left turn" development onto Slaughter Lane,*

*utilizing driveway K. We feel that this driveway access is important to the overall development that's taking place in South Park Meadows. It would provide a substantial benefit to the traffic flow in that area.*

*Richard Suttle, representing the Applicant – We also have a letter of support from the neighborhood association with conditions that we have agreed upon. They also asked today for no service station use on Slaughter Lane and we have agreed to that. This case boils down to four minor issues with Staff that we'd like your consideration on. The first is that we have asked for GR zoning for the properties along Slaughter Lane; Staff has recommended LR with the exception of one or two points; what we are offering tonight is to allow us to have the GR uses, but we would go to LR site development regulations. We also asked that the Staff recommendation for GO along our private road that Staff recommends GO, that private road is actually a driveway and we maintain it as part of the retail development and we would like to have the GR on the west side. The access to driveway K is an interesting situation because that is a driveway that in previous zoning cases was approved for full access. We're asking that it be a full access driveway. If you think that could be an unsafe situation for making left turns out, the developer is willing to fund and pay for another stop light at that intersection to make it full access and do another stop light to make it safe, we're offering that tonight. Driveway B on South First, that is a driveway for another tract to come out onto South First, there's a drainageway that comes through that we're on the permitting process. We would like to have a right-in and a right-out driveway there; Staff is recommending no driveway because it doesn't have much traffic, we think it's important to have as much access as you can to this tract because it works.*

*Commissioner Hale – Has there been any study or analysis done for the stop light, in terms of the traffic impact?*

*Mr. Suttle – There has not been a traffic impact analysis done that I'm aware of, it does not meet the recommended distance from other stop lights in the area; however, it works.*

*Commissioner Rabago – You said you want a full access driveway and that you want to add a light, which was on driveway K, right?*

*Mr. Suttle – Yes.*

*Commissioner Rabago – Talk about B.*

*Mr. Suttle – Driveway B; that's the one on South First,, we want to be able to get onto South First.*

*Commissioner Rabago – Okay. If you don't have Driveway B, what would be the residents' alternate exit from this subdivision?*

*Mr. Suttle – Everybody would have to funnel out through that one road; make a left and then hit South First.*

*Commissioner Jackson – Do you know the distance between Cullen Lane and driveway K?*

*Mr. Suttle – I think it's about 900-feet.*

*Commissioner Hammond asked about a driveway behind the Sonic; parallel to Slaughter Lane.*

*Commissioner Baker – ...the uses that are listed by Staff, if there are any LR uses.*

*Mr. Suttle – We have agreed to no service stations on Slaughter.*

*Commissioner Baker – Automotive repair and rental...*

*Mr. Suttle – What we've agreed to do, at the corner of Francia Trail, which is where the entry to the neighborhood is, we've agreed to no automotive uses. That would include rentals, repair, washing; that kind of stuff. Up and down Slaughter we would like to keep the flexibility to do most of those uses, but not the gas station.*

*Commissioner Hammond – We have our share of automotive uses in South Austin.*

*Commissioner Baker – Will you exclude automotive repair?*

*Mr. Suttle – That's part of a retail development, but what we have done to alleviate that is we have more buffer and more landscaping along Slaughter; and less driveways. We're not asking for a driveway for each use.*

*Commissioner Hawthorne and Gohil moved to close the public hearing.*

*Commissioner Rabago – I like the idea of that light that the owners are willing to pay for if we provide that full access to driveway K.*

*Emily Barron, staff – Final approval for that light will have to come from our Public Works Department; and due to the spacing and approval of a signal at Francia and Slaughter, they won't approve a signal at this driveway.*

*Mr. Suttle – They would not recommend the light at that driveway; but if we pay for it and a higher union than Public Works says to do the light, I think the light would happen.*

*Commissioner Hammond – Are all the houses going to be multi-family housing?*

*Mr. Suttle – No, the reason we asked for SF-6, we have a single-family home builder that would like to build single-family in there and mix the lot sizes, some standard and some small lot. The lowest zoning category that you can ask for to do both small and normal size lot is SF-6.*

*Commissioner Hammond – Is there a potential that it would be a TND?*

*Mr. Suttle – There is a potential, we haven't thought about that.*

*Commissioner Hammond – I would recommend that.*

*Commissioner Jackson – I'll make a motion to approve Staff's recommendation with the following modifications to those recommendations. For Tract 5, the internal portion of tract 5 adjacent to driveway 5, be GR. Adjacent to Slaughter Lane be GR with LR development regulations and restricting drop-off recycling, collection facility, pawn shop services, residential treatment and service stations. We'll allow full access on driveway K with the provision that the developer fund the signal there and that driveway B be allowed as right-in and right-out.*

*Commissioner Rabago – Second.*

*Commissioner Baker – Would you be certain that your motion is GR-CO; and for that tract along the portion of GR-CO on tract 5, that runs between Slaughter, are you prohibiting the same uses there?*

*Commissioner Jackson – No, I am not requiring LR development regulations; but I would prohibit the same uses.*

*Commissioner Baker – Okay; that's fine.*

*Motion carried. (7-0)*
